Mission

Empower the poor of rural Haiti
to improve their quality of life

Raising Haiti Foundation's 3LEGS Program

A Haitian metaphor says
“a stool cannot stand
without 3 legs”.

3 LEGS of Sustainable Development:

Leg 1: Grassroots Organizing

Leg 2: Higher Education and Local Training

Leg 3: Economic Opportunity

Raising Haiti Foundation

Our commitment: MAKE SUSTAINABLE CHANGE IN RURAL HAITI

Our Inspiration: 3Legs Program:

- Community Organization

- Education

- Micro-Capital Projects

= village by village, self sustaining improvement in quality of life

Our Partners: Smallholder Farmers Alliance, Parish Twinning Program of the Americas, Our Lady Queen of Peace Church

**Accomplishments
since Jan 1, 2021**

1. Community Organizing

259,604 trees grown in two communities

23.4 acres of land purchased for conversion to forestland

Farm supply store opened
so farmers can purchase locally

2. Education

9 university scholarships provided

5 university students graduated

6 post-graduate internships provided

1 primary school supported, educating 450 students

3. Economic Opportunity

Tree Currency Program For Economic Opportunity

Haiti is severely deforested. And its ~1 million smallholder farms underperform due to a lack of trees - - - that leads to floods and soil erosion.

Tree Currency Program starts with tree planting

tree
planting

Additional services available

Tree Currency Program

Empowers smallholder farmers to address these UN Development Goals

End:

- poverty
- food insecurity
- gender inequality
- climate change

Deforestation leads to a decrease in crop yields for the ~ five million Haitian smallholder farmers, forcing them to supplement their incomes by cutting trees for charcoal production.

Tree Currency Program

Links tree planting and conservation with

- increasing food production;
- increasing incomes;
- gender equity

Tree nursery

Yield Increase: 40% Income Up: 50 to 100%

Accomplishments in Economic Opportunity since January 2021

7,943 smallholder farmers in two communities increased their incomes by planting trees

750 micro-loans provided to 240 women

7,334 farmers empowered to increase their harvests by participating in a bean-seed sharing co-op

Disaster Recovery

The August 2021 earthquake destroyed over 700 homes in the community of Laborde

Forcing families
to sleep outside

RHF provided emergency aid

- tarps
- food
- water
- medical care

FOOD: over 12,000 hot meals

TARPS: 225 delivered on site

WATER: 64,000 purification tablets

MEDICAL CARE: 640 people treated

RHF provided long term recovery assistance

- crop seeds
- water pumps
- livestock
- tree seeds

Crops grown from seeds provided by the recovery assistance initiative

Livestock added to the community's animal husbandry program

The Laborde community requests assistance rebuilding homes

Madame Duval Came Suze

Tarp structure where the Suze family lives

We are working with Habitat for Humanity-Haiti and Smallholder Farmers Alliance to empower the community to build 15 homes

Earthquake and hurricane resistant home design contains a multi-purpose room, veranda, rain harvesting system and toilet

Cost/home: \$11,000:
\$5,000 from Habitat for Humanity
\$6,000 from Raising Haiti Foundation

We are seeking individuals, groups, and organizations willing to provide \$6,000 to provide a home for a family, essentially “adopting” the family.

We can provide details on each family and photos of the home construction.

We would greatly appreciate your help!

Raising Haiti Foundation

US based 501(c)3 nonprofit organization

Provides financial support for grassroots initiatives designed to foster socio-economic development across rural Haiti through the empowerment of its citizens.

Questions?

**Contact Sue Carlson, M.D.
Executive Director & Board Member
scarlson@raisinghaiti.org**

A photograph of five young children in a lush green cornfield. The children are of African descent and are dressed in colorful, casual clothing. They are standing and sitting among the tall corn plants, looking towards the camera. The background shows rolling hills under a clear sky. A dark blue speech bubble is overlaid on the top right of the image, containing the text 'Mesi anpil! Bondye beni ou!'.

Mesi anpil! Bondye beni ou!

Thank you! May God bless you!
